# STAAR Grades 3-8

**2016 Test Administrations** 

# **Reporting Student Data File Format**

## **Overview**

All STAAR, STAAR L, and STAAR A data for a student will be combined into one record on the data file, including both English and Spanish. Students can test with varying assessments; however the results will be merged together to create one record in the individual student record file. Records will not be merged together when a student takes one or more subjects at one grade level and one or more subjects at another grade level.

Following is a list of the most significant changes being implemented in 2016.

- 1. **Student Performance Standards and Performance Level Results:** Fields have been updated for Level II passing standards due to phase in approach being replaced with a standard progression approach (STAAR, STAAR L, and STAAR A test versions). See positions 416 (reading), 770 (mathematics), 1116 (writing), 1518 (social studies), and 1918 (science).
- 2. **STAAR Progress Measure Information:** The STAAR Progress Measure and associated fields have been removed for grade 7 writing (see positions 1139–1153). On Track to Pass at Phase-In Standards has been removed in position 427 and On Track to Pass at Recommended Standard has been updated for reading (see position 429). The STAAR Progress Measure and On Track Measure has been added for mathematics (see positions 780–797).
- 3. **Current year history information:** Current-year history information for grades 5 and 8 May retest has been added for mathematics. See positions 2341–2360.
- 4. **New to Texas:** A new field have been added. See position 190.
- 5. **Lexile Measure:** Lexile Measure has been added for STAAR grades 3-5 reading and STAAR grades 3 & 4 reading Spanish. See positions 607-611.
- 6. **Reporting Category information**: Reporting Category information has been updated for grade 4 and 7 writing. Grade 4 & 7 writing will only have one essay. See position 1126.
- 7. **ELL Progress Measure Qualification:** The STAAR ELL Progress Measure Qualification has been added. See position 1166.

# **Attention For Users of Tab-delimited Files**

If you ordered a tab-delimited file, a delimiter has been placed after each data field in the file (Hex = 09). For example, the first data field, Administration Date, has a field length of 4 and is followed by a delimiter in position 5. Therefore, the data for Grade Level Tested begins in position 6 rather than position 5 as shown in the data file format.

#### **ITEM LEVEL INFORMATION**

#### 2001-2054 54 SCIENCE ITEM REPORTING CATEGORY NUMBERS

The number in each field indicates the reporting category measured by the corresponding science item. For example, the value in the first field, position 2001, indicates the reporting category measured by item 1. The second field, position 2002, indicates the reporting category measured by item 2, and so on.

Note: The reporting category numbers will be populated for all released test forms in Spring Primary Administration.

#### 2055-2108 54 SCIENCE ITEM STUDENT RESPONSES

The character in each field indicates the correct response to the corresponding science item. The student's response to item 1 is in the first field, the student's response to item 2 is in the second field, and so on. Correct responses are indicated by a plus sign (+); an alpha character (A–D or F–J) indicates an incorrect response; and an asterisk (\*) indicates that the response was left blank or multiple values were gridded. Note: for any open-ended griddable items, B = incorrect response.

Note: The student responses will be populated for all released test forms in Spring Primary Administration.

#### 2109-2162 54 SCIENCE ITEM CORRECT RESPONSES

The character in each field indicates the correct response to the corresponding science item (value = A–D or F–J). Note: "A" will be the correct response for any open-ended griddable items.

Note: The correct responses will be populated for all released test forms in Spring Primary Administration.
